System ID: credit_scoring_model-4dbb0f

Executive Summary

What this report covers: Credit Scoring Model v2 is monitored in EU.

Plain-language risk note: This system can affect access to credit, so it needs stronger oversight, closer monitoring, and clear documentation.

Current status: There are 2 open alerts that need review. Recent monitoring found 1 fairness or drift checks above the configured threshold. There are no open remediation tasks.

What to do next: Review the open alerts, confirm the assigned owners, and verify whether any fairness or drift issues still need action.

1. System Overview

This section gives the basic facts about the system in a simple format.

Property	Value
System ID	credit_scoring_model-4dbb0f
Name	Credit Scoring Model v2
Version	dashboard-2026-10-06
Owner Team	retail-credit-engineering
Owner Email	Not specified
Registered	2026-10-06 09:40
Monitoring Status	✓ Enabled

Purpose

Predicts probability of loan default using applicant transaction history

Data Sources

- transaction_history
- credit_bureau

Affected Demographics

- age
- income_band

Jurisdictions

EU

2. Risk Classification

This section explains why the system is classified this way and what that means operationally.

Current Risk Tier:

HIGH_RISK

In plain language: This system can affect access to credit, so it needs stronger oversight, closer monitoring, and clear documentation.

Classification Reasoning

Assessed 1 framework(s): EU_AI_ACT=HIGH_RISK

Regulatory Obligations

EU_AI_ACT

Article	Title	Excerpt
Annex III point 5(b)	High-risk AI systems referred to in Article 6(2)	AI systems intended to be used to evaluate the creditworthiness of natural persons or establish thei...

Required Obligations

1. Conformity assessment before deployment (Article 43)
2. Establish and maintain a risk management system (Article 9)
3. Data governance and bias monitoring regarding training, validation, and testing data sets (Article 10)
4. Draw up and keep technical documentation (Article 11)
5. Automatic logging of events during operation (Article 12)
6. Transparency and provision of information to deployers (Article 13)
7. Enable human oversight measures (Article 14)

8. Ensure high levels of accuracy, cybersecurity, and robustness (Article 15)

3. Fairness & Drift Monitoring History

This section shows whether recent monitoring results stayed inside policy limits.

Date	Sample Size	Demographic Parity	Equalized Odds	PSI	Status
2026-10-06 09:41	1500	0.2480	0.3292	0.0022	CRITICAL

4. Governance Alerts

This section lists the open governance issues that still need attention.

Date	Severity	Type	Title	Status
2026-10-06 09:41	CRITICAL	FAIRNESS_VIOLATION	Equalized Odds Violation	Open
2026-10-06 09:41	CRITICAL	FAIRNESS_VIOLATION	Demographic Parity Violation	Open

5. Open Remediation Tasks

This section shows the work already assigned to fix open issues.

No open remediation tasks.

6. Audit Trail & Metadata

This section records when the report was created and how it can be traced later.
